

# CRESCENT VALLEY HIGH SCHOOL

## School and Community

## 2019-2020 School Profile

Our Mid-Willamette Valley community is less than 4 miles north of downtown Corvallis, home of Oregon State University. Crescent Valley High School, established in 1971, is a four year comprehensive high school and is accredited by the Northwest Accreditation Commission. With a series of buildings structured to mimic an area community college, Crescent Valley has the feel of a small college that resides in a more rural setting than most high schools. Staff invest in the 963 students who make up its four grade levels with diverse learning interests ranging from engineering, computer science, the arts and foreign languages, to core classes in English, Social Studies and Science. Crescent Valley has developed a robust curriculum in STEAM (Science, Technology, Engineering, Art, and Mathematics) and is committed to it's ongoing development as an interdisciplinary education, providing experience-rich environments that focus on developing skills necessary for the global environment. Connections to real-world projects with community and industry partners are actively pursued.
