

College Now Program

College Now is a program that allows high school students the opportunity to earn college credit as they take an approved college-level course at Crescent Valley High School. A list of College Now courses offered at CV can be found at <https://bit.ly/2oMgguQ>

When a student earns College Now credits, those credits and grades are posted to the student's Linn Benton Community College (LBCC) transcript. This transcript is established when the student completes a High School Partnerships Application. College Now credits are transferable to all Oregon state universities (OUS System). If students are wanting to transfer these credits to a in-state or out-of-state private schools or an out-of-state public institutions they will need to check with the specific university.

Each student is responsible for sending the LBCC transcript to the colleges they apply to, as well as sending a final transcript after graduation so LBCC College Now credits can be reviewed and applied to the institution of higher education that they plan to attend. Transcript request forms are available on their Webrunner account found on the LBCC website.

Financial Aid Implications at LBCC

Taken from LBCC College Now Guide:

Students are limited to financial aid eligibility only for 150% of the published credit length of a selected academic program. All credits attempted, including college credits attempted in high school, count toward the 150% limit for your selected program (approximately 135 credits for a two year degree) For more information: Academic Standards for Financial Aid found here <https://bit.ly/2P2zWVY>

Financial Aid Implications for Oregon Promise

Students can only receive Oregon Promise up until they have attempted 90 credits. The credits you receive through College Now count toward this limit. For more information visit the OSAC website found here <https://bit.ly/2IXNOgH>

How To Sign Up

Students must complete the following steps by the deadlines provided at <https://bit.ly/33B2U3j>

1. To register for College Now, the student needs to complete one-time the *High School Partnership Programs Application* online at <https://bit.ly/2BmygP8> Registration is FREE.
2. The *High School Partnership Programs Application* is completed ONLY ONCE regardless of how many *College Now* eligible courses are taken during high school.
3. When LBCC receives the *High School Partnership Programs Application*, a *College Now* account is set up at LBCC and an LBCC student ID# is assigned to the student. Some students may already have an LBCC student ID# from previously taking a class such as driver's ed, in which case that ID# will be used. Students still need to complete an application even if they have an ID# from drivers ed.
4. LBCC will email the student's ID# to the email address once the *College Now* account is set up.
4. CVHS staff who teach a *College Now* eligible course will explain the *College Now* program at the beginning of the term. Students will be asked to sign-up on the teacher's *College Now Class Roster* if they want to earn *College Now* credit. It is the student's responsibility to make sure their name is on the class roster for every *College Now* eligible course taken.
5. At the end of the course, the teacher submits grades to LBCC for students who signed up on the *College Now Class Roster*.
6. Students can access their LBCC transcripts (record of completed coursework) on Webrunner at linnbenton.edu and should do this periodically to verify that all College Credits earned have been posted to their LBCC transcript.
